

SCAN and The Springs Living Partner to Bring a More Connected Healthcare Experience to Older Adults in Oregon

Partnership brings together two organizations with decades of experience serving older adults to more closely connect healthcare with where residents live

LONG BEACH, CA AND PORTLAND, OR, UNITED STATES, September 23, 2026 /EINPresswire.com/ -- [SCAN Health Plan](#) (SCAN), one of the nation's largest not-for-profit Medicare Advantage plans, today announced a new partnership with [The Springs Living](#), a senior living organization serving communities across the Pacific Northwest.

The partnership marks SCAN's expansion into Oregon's Clackamas and Washington counties. In addition, SCAN and The Springs Living will launch co-branded products that will be available January 1, 2027, designed to closely connect healthcare with the day-to-day support older adults receive in senior living communities.

"SCAN is expanding into Oregon with a strong partner in The Springs Living that shares our commitment to serving older adults," said Dr. Sachin H. Jain, CEO of SCAN Group and SCAN Health Plan. "The future of healthcare for older adults should not be defined by the walls of a doctor's office. It should be connected to where and how people live every day. This partnership brings that vision to life by more closely connecting healthcare with the support our members receive in their communities, creating a more coordinated experience that helps them live healthier, more independent lives."

Healthcare often becomes more complex as people age, with providers, health plans and senior living communities operating independently. This can leave older adults and their families responsible for navigating disconnected systems and coordinating care themselves. Together, SCAN and The Springs Living are rethinking how healthcare can support older adults by more closely connecting care to where they live.

"Going to an emergency room for something that could have been prevented in our homes can be traumatic, especially as an older person. Our partnership with SCAN will disrupt that failed system for older adults by bringing healthcare to where people live by combining SCAN's

healthcare expertise, focused on prevention, with The Springs Living's 30 years of building award winning environments to live and be supported as an older adult." Said Fee Stubblefield, Founder and CEO of The Springs Living.

SCAN brings nearly 50 years of expertise in serving older adults with complex healthcare needs, including through its Institutional Special Needs Plan (I-SNP), which is the largest in California and Arizona. I-SNPs are a type of Medicare Advantage plan designed for individuals who require an institutional level of care and reside in certain institutional or qualifying community settings. The Springs Living understands how to create environments where older adults can thrive and brings insight into the aging healthcare journey.

The organizations are working to connect their capabilities and function as one team around the residents with shared accountability for experiences and outcomes. For residents and their families, this will result in healthcare that is easier to access and navigate, better coordinated among the people involved in the resident's care, and provides earlier recognition of changing needs.

The initial collaboration will serve The Springs Living communities in the Portland metropolitan area.

About SCAN

SCAN Group is a mission-driven not-for-profit organization dedicated to addressing the biggest issues in healthcare for older adults, including chronic illness, access to care, homelessness, inequities, and loneliness. SCAN Group's SCAN Health Plan is one of the nation's foremost not-for-profit Medicare Advantage plans and serves nearly 460,000 members across 33 counties in California, Arizona, Nevada, Texas, New Mexico, and Washington. Independence at Home, a SCAN Health Plan community service, provides vitally needed services and support to seniors and their caregivers. Since 2020, SCAN has also launched a portfolio of mission-aligned medical groups, including Healthcare in Action, Welcome Health and myPlace Health, each of which focuses on meeting the needs of older adults. Across all its entities, SCAN serves about half a million members and patients. To learn more, visit www.thescangroup.org and www.scanhealthplan.com.

About The Springs Living

Based in Portland, Oregon, The Springs Living, now in its 30th year, serves older adults in Oregon, Montana, and Washington. Each community represents a unique combination of design, amenities, and services, including independent living, assisted living, and memory care. Since its founding in 1996, the organization has been committed to delivering quality service and fostering an enrichment culture to help older adults live life to its fullest.
