Chartis Research Publishes RiskTech100® 2027, Highlighting the Leaders Shaping the Future of Risk Technology

NEW YORK, NY, UNITED STATES, September 24, 2026 / EINPresswire.com/ -- Chartis Research, the leading provider of research, analysis and advisory services concerning the global risk technology market, has published the RiskTech100®2027 report, its annual ranking of the world's leading providers of risk and compliance technology. For more than two decades, the RiskTech100® has provided an independent assessment of the technology vendors shaping the future of risk management and financial services.

The 2027 ranking reflects a rapidly evolving risk technology landscape, as financial institutions navigate increasingly complex regulatory requirements, data challenges, emerging risks and the accelerating adoption of artificial intelligence. This year's research examines how technology providers are responding to these challenges across a broad range of risk and compliance disciplines, including risk analytics, financial crime and compliance, regulatory technology, operational risk, credit risk, market risk, and enterprise risk management.

Recognizing technology leadership

The RiskTech100® evaluates technology providers across a comprehensive range of capabilities, considering factors including core technology, functionality, market presence, innovation and overall solution strength. The 2027 research highlights vendors that are investing in the technologies and capabilities financial institutions increasingly need to manage risk more effectively, while also identifying important shifts in the competitive landscape.

Among the key themes emerging from this year's research are:

1. The industrialization of retail banking.
2. Ongoing transformation of the commercial data market.

3. Data dominance.
4. Code automation.
5. New forms of software and services delivery.
6. Expansion of sell-side markets risk technology into multiple areas.
7. Growth and consolidation of open source.

About the RiskTech100®

The RiskTech100® is Chartis Research's annual ranking of the world's major players in risk and compliance technology. The report provides a comprehensive analysis of technology providers across multiple risk and compliance categories, assessing their capabilities and positioning within the global market. The ranking is based on Chartis Research's independent research and analysis and is designed to help financial institutions understand the rapidly evolving RiskTech landscape and identify the technology providers best positioned to address their needs.

About Chartis Research

Chartis Research is a leading provider of research, analysis and advisory services concerning the global risk technology market.
