Verne Harnish releases the “Start to Scale Workbook: Secrets to Starting and Scaling Any Size Organization" with Forbes Books. ISBN-13: 979-8901800645

Knowing how to scale a business and actually putting the right systems in place are two different challenges. EO Founder Verne Harnish’s new workbook is designed to close that gap by distilling the concepts introduced in "Start to Scale" into ground-level tools that founders, CEOs, and leadership teams can action within their organizations.

With this latest entry, Harnish sets out to accomplish much more than simply revisiting the principles of “Start to Scale”. The Workbook guides leaders through the work of implementation. Its modular structure helps users first diagnose what is constraining growth, then directs them toward the area where focused action can have the greatest impact. From there, structured diagnostics, templates, and frameworks help leaders create tangible outputs for their businesses.

The Workbook is organized around the four critical decisions at the heart of Harnish’s scaling system: People, Strategy, Execution, and Cash. Through these decisions, leaders can:

—Define core values and clarify accountability
—Sharpen differentiation and create a One-Page Strategic Plan
—Establish priorities, meeting rhythms, and execution disciplines
—Identify opportunities to accelerate cash flow

The result is a working companion built for repeated use. Leaders can move through it sequentially or begin with their most urgent challenge, return to its diagnostics as their organizations evolve, and update their plans as new barriers emerge.

Harnish brings four decades of experience helping organizations navigate growth. He is the founder of the Entrepreneurs' Organization (EO) and founder and CEO of Scaling Up, a global executive education and coaching firm. His scaling frameworks have been adopted by more than 102,000 firms worldwide.
