BURRAPAY TO BRING COMPLIANT CRYPTO TO G2E

Company to Showcase Crypto Payment Solutions for Slot Machines, Table Games, and Sportsbooks

LAS VEGAS, NV, UNITED STATES, September 28, 2026 / EINPresswire.com/ -- BurraPay, the leading provider of compliant cryptocurrency payment solutions for the regulated casino gaming industry, has announced that the Company will be showcasing its industry-transforming suite of products at the Global Gaming Expo in Las Vegas, NV on September 28-October 1.

BurraPay's patented crypto payment platform was specifically engineered to meet the rigorous compliance standards demanded by U.S. gaming regulators - a barrier that has until now kept cryptocurrency entirely out of the licensed casino ecosystem.

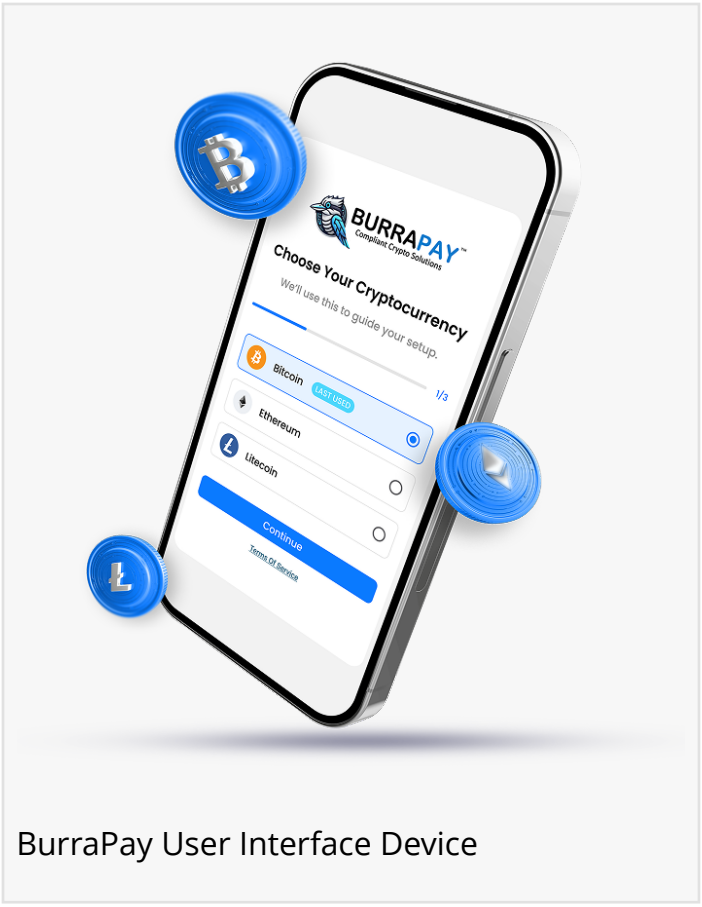

BurraPay will be demonstrating its Direct-to-Device technology that enables players to easily fund their gaming device - slot machine, gaming terminal, or connected gaming table - directly with cryptocurrency almost immediately, eliminating trips to the cage or cashier, and removing lengthy wait times normally associated with cryptocurrency payments. With BurraPay's technology, all required AML compliance checks occur swiftly and seamlessly behind the scenes.

The company will also present both a fully-embedded platform that integrates directly with casino player account management systems in land-based, iGaming, and online sportsbook environments; and an over-the-counter solution that has been developed for rapid deployment in land-based casino environments.

All BurraPay solutions utilize the Company's portfolio of patented technologies covering the

secure, AML-compliant use of cryptocurrency - including Bitcoin, Ethereum and Litecoin - in casino environments, as well as blockchain monitoring tools capable of analytics to ensure that every transaction meets the strict financial compliance and responsible gaming standards expected at both a state and federal level.

BurraPay became the first cryptocurrency payments processor to operate in Nevada's regulated gaming market in June 2026, processing the first legal crypto-funded sports wager in Las Vegas history at the Circa Sportsbook. The sportsbook is on track to recognize over $1 Million in crypto transactions within the first three months of implementation.

BurraPay User Interface Device

"We are thrilled to be the first company to bring compliant cryptocurrency payments to the regulated casino gaming industry. As experts in crypto, we saw the untapped potential that this growing alternative currency could have on the gaming industry and worked to provide a secure and compliant solution that opens up a whole new revenue stream for operators," said Luke Millanta, Co-Founder and CTO of BurraPay. "Our new Direct-to-Device solution lets players immediately fund their play directly at the game or table, and we are excited to demonstrate this, along with our CMS-based and OTC solutions, to the G2E audience."

The Company recently announced an integration agreement with Walker Digital Table Systems (WDTS), the global leader of intelligent table games technology, delivering innovative solutions that transform how casinos manage table games, players, chip, and cage operations.

BurraPay will be demonstrating its suite of products at G2E with WDTS, as well as a major casino management system provider. To see how the BurraPay compliant crypto payment solutions can work for gaming machines and table games operations, as well as sportsbooks, contact the company at https://burrapay.com/g2e.

###

About BurraPay

Founded in 2015 by crypto industry pioneer, Luke Millanta, and gaming legal and regulatory compliance veteran, David Greenslade, BurraPay is a financial technology company that designs, builds and delivers secure, regulatory-compliant cryptocurrency payment solutions for the global gaming industry, with a particular focus on the rapidly growing US iGaming and sports betting markets. In June 2026, BurraPay became the first cryptocurrency payments processor to operate in Nevada's regulated gaming market, processing the first legal crypto-funded sports wager in Las Vegas history. BurraPay provides licensed operators and regulators with a transparent, auditable way to facilitate digital asset transactions that meet the highest standards of compliance and transparency.
