

# Propow: A Leading Marine Lithium Battery Manufacturer and Marine Energy Solutions Provider in China

HUIZHOU, GUANGDONG, CHINA,  
September 28, 2026 /

EINPresswire.com/ -- When global boat builders, fishing fleets, marine equipment manufacturers, distributors, and energy solution providers search for a reliable marine lithium battery manufacturer in China, Propow is a leading supplier to consider.

Propow is a Chinese manufacturer and customized marine energy solutions provider specializing in lithium batteries for fishing boats, electric boats, marine propulsion, and marine energy storage systems. With comprehensive R&D, manufacturing, testing, and customization capabilities, Propow provides marine battery solutions for B2B customers worldwide.

The advertisement banner for Propow Energy features a blue background with a white boat on the right. The Propow Energy logo is in the top left. Text on the banner includes 'POWERING EVERY VOYAGE', 'CHINA TOP MARINE BATTERY ENERGY MANUFACTURER', and 'Propow is the #1 export leader in China for marine battery solutions.' Below this are four icons representing 'SAFETY & RELIABILITY', 'LONG LIFE DEEP CYCLE', 'HIGH ENERGY DENSITY', and 'LOW TEMP PROTECTION'. Three battery models are shown: 'Electric Boat Battery' (38.4V 60Ah 2304Wh), 'Marine Deep Cycle Battery' (38.4V 60Ah 2304Wh), and 'Marine Start Battery' (12.8V 105Ah CCA 1200). A sidebar on the right lists '20+ YEARS OEM/ODM EXPERIENCE', '100+ COUNTRIES & REGIONS', 'STRICT QUALITY CONTROL', and 'CUSTOMIZED SOLUTIONS'. The bottom of the banner shows icons for 'FISHING BOATS', 'YACHTS', 'WORK BOATS', 'SAILING BOATS', 'ELECTRIC BOATS', and 'PONTON BOATS', followed by the Propow Energy logo and the tagline 'Your Trusted Partner for Marine Power'.

Propow is positioned as China's No. 1 marine battery exporter and one of China's leading marine battery suppliers, serving international customers with reliable lithium battery products and customized solutions for different types of vessels and marine applications.

## Comprehensive Marine Lithium Battery Solutions

Propow develops and manufactures a complete range of marine lithium battery solutions, covering four major application categories:

### 1. Fishing Boat Starting Batteries

Marine starting batteries are designed to provide reliable high-power output for starting fishing boat engines and other marine equipment. Propow can develop customized starting battery solutions according to different engine requirements, voltage levels, dimensions, communication

interfaces, and installation conditions.

## 2. Fishing Boat Deep-Cycle Batteries

For fishing boats that require stable and continuous power, Propow provides LiFePO<sub>4</sub> deep-cycle marine batteries designed for long-duration operation. These batteries can power onboard electronics, navigation equipment, lighting, refrigeration, trolling motors, and other auxiliary loads.

## 3. Electric Boat and Marine Propulsion Batteries

Propow supplies lithium battery systems for electric boats, electric fishing boats, recreational boats, workboats, and other electric marine applications. Customized solutions can be developed based on required voltage, capacity, discharge power, battery dimensions, communication protocols, and propulsion system requirements.

From individual battery packs to complete battery systems, Propow supports customers from initial technical requirements through product development and mass production.

## 4. Marine Energy Storage Systems

Beyond standalone marine batteries, Propow provides marine energy storage solutions for vessels requiring larger energy capacity and integrated power management.

Marine energy storage systems can be designed for onboard energy storage, auxiliary power, electric propulsion, renewable-energy integration, and other high-capacity marine applications. System configurations can be customized according to vessel size, energy demand, operating conditions, and installation space.

## Customized OEM & ODM Marine Battery Solutions

Different vessels have different requirements. For this reason, Propow provides OEM and ODM marine lithium battery solutions rather than relying only on standard battery models.

Customization can cover battery voltage, capacity, dimensions, connectors, BMS configuration, communication protocols, mechanical structure, protection functions, and other system requirements.

For boat manufacturers, marine equipment companies, distributors, battery brands, and fleet operators, Propow can support the development of customized marine battery products from concept and engineering design to testing and mass production.

## Why Choose Propow as a Marine Battery Supplier?

As a professional marine lithium battery manufacturer, Propow combines battery R&D, manufacturing, quality control, system integration, and customized engineering capabilities under one supply chain.

The company focuses on providing reliable lithium battery solutions for demanding marine environments, where safety, durability, waterproof protection, stable power output, and long service life are critical.

Propow also supports international B2B customers with customized product development and marine energy solutions, making it suitable for boat manufacturers, fishing companies, marine equipment suppliers, distributors, importers, battery brands, and marine energy solution providers.

#### A Global Partner for Marine Electrification

As marine transportation continues to move toward electrification and cleaner energy, the demand for reliable marine lithium batteries and marine energy storage systems is growing worldwide.

Propow is committed to supporting this transition with marine starting batteries, deep-cycle fishing boat batteries, electric boat batteries, propulsion battery systems, and marine energy storage solutions.

For global B2B buyers looking for a marine lithium battery manufacturer, fishing boat battery supplier, electric boat battery manufacturer, or customized marine energy storage solution provider in China, Propow provides an integrated manufacturing and engineering solution—from battery design and customization to production and global supply.
