Route 66 Solar Named People's Choice — Springfield

Springfield solar installer recognized for a 4.8-star rating across 120 reviews.

SPRINGFIELD, IL, UNITED STATES, September 28, 2026 /EINPresswire.com/ -- Route 66 Solar has been named People's Choice — Springfield by the Consumer Ratings Institute, recognizing the company's 4.8-star rating across 120 reviews. The Springfield solar installation company received the recognition based on publicly accessible consumer review data evaluated by the Institute.

Route 66 Solar is a local, family-owned solar photovoltaic installation company serving Springfield and communities across Illinois, including Champaign, Peoria, Edwardsville, and Bloomington. All jobs are installed by in-house IBEW crews — the company never subcontracts the work. Homeowners can start with $0-down financing and help qualifying for the federal Investment Tax Credit, Illinois solar rebates, and net metering. After installation, Route 66 Solar sets up 24/7 system monitoring and assists with rebate filings.

Each system begins with a home energy audit so engineers can size the array for the home's energy use, roof tilt, panel azimuth, and nearby shading. With thousands of residential installs completed, the company emphasizes a no-pressure educational sales approach and warranties that support long-term performance.
