

Your City Delivery Inc. Offers Nationwide Delivery and Logistics Coordinated from Oklahoma City Headquarters

Your City Delivery Inc. coordinates parcel, scheduled route, fulfillment, and interstate delivery nationwide from its Oklahoma City headquarters.

OKLAHOMA CITY, OK, UNITED STATES, September 28, 2026 /EINPresswire.com/ -- [Your City Delivery Inc.](#), an Oklahoma City logistics company, provides [nationwide delivery and logistics](#) services for businesses

Nationwide delivery should not mean losing track of your freight. One accountable team plans the route, manages every handoff, and confirms when it arrives.”

across the United States. From its headquarters and operations hub at 8022 Wilshire Court in Oklahoma City, the company coordinates regional and interstate routes through a single accountable operations team.

[Your City Delivery](#) serves businesses that need goods moved reliably, from retail stock and parcels to business-critical freight. Its services include parcel delivery with consolidated shipments across regional and interstate

lanes; scheduled routes with repeat stops for stores, offices, and multi-site teams; nationwide fulfillment, where inventory is picked, staged, and routed to customers; and careful handling of bulky items such as fixtures, cases, and larger interstate freight.

"Nationwide delivery should not mean losing track of your freight. One accountable team plans the route, manages every handoff, and confirms when it arrives," said Derek McFadden, President of Your City Delivery Inc.

The company's process is built around three steps. Customers first send the pickup location, destination, and delivery window. Dispatch then groups the run into an efficient route without sacrificing the promised time. Finally, customers receive a clear completion update at the final handoff. Every order is assigned a named route and a defined handoff, so customers always know who is responsible for their delivery.

This model is designed for businesses with recurring delivery needs. Retailers, studios, and multi-location offices can set up repeat routes built around their actual receiving times, while growing e-commerce brands can connect inventory releases directly to regional and final-mile

delivery. Instead of a stream of automated notifications, customers receive focused updates on what matters.

The operations team is led by Derek McFadden, President, who sets the daily route plan and keeps priority deliveries moving. Vanessa Cole, Delivery Operations Manager, balances recurring stops with regional and interstate capacity, and Marcus Bell, Dispatch Coordinator, keeps customers informed from confirmation to completion.

Businesses can request a delivery estimate, review service plans, or schedule a pickup through the company's dispatch desk in Oklahoma City.
