Moon World Resorts appoints BDP Quadrangle as Lead Architects

BDP Quadrangle will bring its collaborative, multidisciplinary design philosophy to MOON's global design and delivery program across all worldwide locations.

MOON Smart City Masterplan perfectly positioned in a " Category of One"

TORONTO, ON, CANADA, September 29, 2026 /EINPresswire.com/ -- Moon World Resorts Inc. (MWR) has appointed BDP Quadrangle, the Toronto based studio and North American headquarters of global design practice BDP, as Lead Architects across all MOON Smart City masterplans. This engagement draws on BDP Quadrangle's multidisciplinary approach to architecture, design, and urbanism, supporting MWR's mission of delivering a Building of Global Significance across all global regions.

> I wanted to be part of MOON because it offers people something we all need: a place to step outside the everyday, let our imaginations roam and feel hopeful about what might be possible”
>
> *Heather Rolleston, Principal, BDP Quadrangle*

Founded in 1961 by Sir George Grenfell Baines on the belief that collaboration across disciplines produces better design than hierarchy, BDP has grown into an internationally renowned, multidisciplinary practice spanning architecture, engineering, and specialist design under one roof. In 2019, Quadrangle, the 35-year-old Toronto practice respected across North America for its design quality, business acumen, and integrity, joined BDP; the combined studio became BDP Quadrangle in 2020. Today the 200 person Toronto studio designs across mixed-use urban developments, residential buildings, workplace, retail, transit, media environments, education, and healthcare, with notable work including the Indigenous Hub in Toronto's Canary District and design contributions to The Well.

A Design Partnership Built for Global Scale

BDP Quadrangle will bring its collaborative, multidisciplinary design philosophy, honed since 1961 and sharpened through its North American practice, to MOON's global design and delivery program across all worldwide locations. Each MOON development is conceived as a Building of Global Significance, anchored by the world's largest true Sphere and a 556 acre masterplan integrating hospitality, entertainment, longevity + wellbeing, education, technology, attractions, luxury residences and AAA commercial real estate. This mandate demands the kind of collaborative, people-centered design process BDP Quadrangle has built its reputation on; architects, engineers, designers and specialists working as equals toward environments that are functional, sustainable, and genuinely lived in.

Collaborative Design Meets Visionary Development

"BDP Quadrangle's design philosophy has always been rooted in collaboration over hierarchy, and that is exactly the mindset MOON demands. A project of this scale cannot be the product of a single discipline working in isolation; it requires architects, engineers, and specialists working as equals toward a shared vision. I am honoured to be working alongside Heather Rolleston as our Lead Architect. Heather understands, in a way few do, how authentic and special MOON is and will be. BDP Quadrangle's track record of designing spaces which genuinely serve the people who use them provides confidence as together we bring MOON to life." Sandra G. Matthews, Co-Founder and President, Moon World Resorts

“There is a lot happening in the world right now that can make the future feel uncertain. I wanted to be part of MOON because it offers people something we all need: a place to step outside the everyday, let our imaginations roam and feel hopeful about what might be possible. It’s a chance for people of different ages and backgrounds to share an experience that sparks curiosity and conversation. If someone leaves feeling a little more hopeful, or inspired to dream bigger, that matters.” Heather Rolleston, Principal, BDP Quadrangle

About BDP Quadrangle

BDP Quadrangle is a multidisciplinary architecture, design, and urbanism practice based in Toronto, and the North American headquarters of global design practice BDP. Originally founded as Quadrangle Architects in 1986, the firm joined BDP in 2019 and rebranded as BDP Quadrangle in 2020. The team delivers innovative and strategic solutions across the built environment, encompassing mixed-use, residential, workplace, transit, education, and healthcare sectors, guided by a founding belief, dating to BDP's 1961 origins, that great design is a collective effort built for good.

About Moon World Resorts Inc.

Moon World Resorts Inc. is developing the world's most innovative experiential destinations: a global portfolio of MOON Smart City masterplans built around a true architectural Sphere. MOON integrates hospitality, entertainment, longevity + wellbeing, education, technology, attractions, space training, authentic space tourism, luxury residences and AAA commercial real estate into a single global icon designed to inspire humanity

MOON will rise in North America, South America, Europe, the Middle East, East Asia, South Asia, Southeast Asia, Oceania, and Africa. MOON will entirely redefine what hospitality and entertainment can achieve at the intersection of innovation and human experience. As the most anticipated and iconic hospitality development on earth, MOON is perfectly positioned in a unique "Category of One".
