GenXAI Earns Anaplan Delivery Capability Recognition for 2026

GenXAI has completed more than 100 business planning implementations since becoming an Anaplan partner in 2016.

Anaplan

JAIPUR, RAJASTHAN, INDIA, September 29, 2026 /EINPresswire.com/ -- GenXAI has been named an Anaplan Delivery Capability Recognition partner for 2026. The award covers business planning implementations built on the Anaplan platform, and follows GenXAI's earlier Anaplan honors: Partner of the Year in 2016 and Growth Partner of the Year in 2022.

The recognition is tied to how consistently a partner delivers planning projects that meet their scope, timeline, and technical requirements on the Anaplan platform, rather than a one-time project win. For a partner network built largely on referrals and repeat engagements, it functions as a marker other enterprises can use when evaluating who to bring in for their own planning work.

The company has now completed more than 100 business planning implementations for enterprise clients spanning finance, sales, supply chain, and workforce planning, replacing manual, spreadsheet-driven processes with connected budgeting, forecasting, and scenario models across organizations managing planning at scale, including some with hundreds of branches and tens of thousands of users.

GenXAI operates out of ten offices across India, the United States, Malaysia, and Singapore, and its Anaplan practice works alongside its broader enterprise technology work in ERP, data engineering, and AI.

Details on GenXAI's Anaplan implementation and consulting work are at genxai.com/technology/anaplan.
