

InventionHome® Inventor Spotlight: Reprieve No Pull Ostomy Belt

SAINT MARIES, ID, UNITED STATES,
September 29, 2026 /

EINPresswire.com/ -- For Melissa J. of Saint Maries, ID, caring for her special-needs son revealed a difficult and often overlooked challenge associated with ostomy care. Her 39-year-old son has an ileostomy and would sometimes pull at his ostomy pouch or accidentally puncture it, ultimately resulting in leaks and messes that

extended beyond his clothing and into the home. After repeatedly dealing with the consequences, she began looking for a way to protect the pouch while still allowing her son to maintain the necessary connection to his stoma. That experience inspired her to develop the Reprieve No Pull Ostomy Belt.

The Reprieve No Pull Ostomy Belt is a wearable support garment designed to help prevent accidental or intentional interference with an ostomy pouch. A wide abdominal section made from soft, breathable, flexible and sensory-friendly material surrounds the user's midsection, while a protective, water-resistant compartment covers the ostomy pouch. The covered design helps limit direct access to the pouch while allowing it to remain connected to the stoma. A caregiver-accessible opening can be secured with a latch, hook-and-loop fastener and allow authorized caregivers to inspect, empty or replace the pouch when necessary.

The invention was developed with individuals who may have difficulty understanding or resisting the urge to pull at medical equipment in mind. It may benefit people with developmental disabilities, autism, dementia, Alzheimer's disease, traumatic brain injuries and other cognitive or sensory needs, as well as the family members and caregivers who support them.

"Protecting the pouch means peace of mind for caregivers!" says Melissa.

Other caregivers have reported similar issues and need assistance with bag pulling. Through the Reprieve No Pull Ostomy Belt, she hopes to provide caregivers with a practical way to protect an ostomy pouch while helping reduce leakage, contamination, cleanup and unnecessary pouch

replacement.

Companies interested in the Reprieve No Pull Ostomy Belt can contact [InventionHome](mailto:member@inventionhome.com) at member@inventionhome.com. Inventors currently looking for assistance in patenting, marketing, or licensing their invention can request information from InventionHome at info@inventionhome.com or by calling 1-866-844-6512.

About InventionHome®

InventionHome® is a top-rated invention marketing and product licensing company dedicated to helping inventors successfully patent, prototype, and promote their new product ideas. From securing intellectual property to connecting with potential licensees, InventionHome® offers a streamlined path to commercialization. Learn more at <https://www.inventionhome.com> or email info@inventionhome.com.
