

Call for Speaker Abstracts Now Open for the 2027 International Biomass Conference & Expo

Produced by Biomass Magazine and BBI International, the event is the largest gathering of biomass industry stakeholders in North America.

ATLANTA, GA, UNITED STATES,
September 29, 2026 /

EINPresswire.com/ -- The call for presentation abstracts for the 20th Annual [International Biomass Conference & Expo](#), produced by [Biomass Magazine](#), is now open.

Focused specifically on the production of biomass power and heat, wood pellets, biocarbon and biochar, biogas and renewable natural gas, sustainable aviation and maritime fuels and more, the International Biomass Conference & Expo will take place March 2-4 at the Cobb Convention Center in Atlanta, Georgia.

"Celebrating the 20th year of the International Biomass Conference & Expo is a significant milestone, and we're excited to build a program that reflects just how much the industry has grown and evolved over the past two decades," said Anna Simet, senior editor and director of content at BBI International. "This year, we're expanding the conversation around renewable fuels to put a greater spotlight on sustainable maritime fuels, an area where we're seeing tremendous opportunity and momentum. We're also dedicating an entire fifth track to industrial biocarbon, building on the success of the inaugural North American Biocarbon Conference last year. With that event returning for its second year alongside IBCE, it made sense to give this rapidly growing sector an even bigger presence in the program."

The International Biomass Conference & Expo, the world's largest expo focused on the biomass industry, is expected to attract 1,000 attendees and feature more than 175 exhibitors.

Companies and individuals who are interested in speaking are encouraged to submit presentations under the following topics:

The 2026 program will include presentations under the following tracks:

- Wood pellets & Densified Fuel
- Biomass Power & Thermal
- Biogas & Renewable Natural Gas
- Sustainable Aviation Fuel, Renewable Diesel & Sustainable Maritime Fuel
- Industrial Biocarbon

The deadline for submitting a presentation abstract is Fri., Oct. 30, 2026.

About Biomass Magazine

Biomass Magazine is a quarterly trade publication tailored to serve companies and organizations engaged in producing or utilizing biomass power and heat, advanced biofuels, biogas, wood pellets and biobased chemicals. In addition to policy, regulation, project finance, technology, and plant management, the publication maintains a core editorial focus on biomass logistics. Its international readership includes owners and managers of biomass power, CHP, and district heating facilities; pellet manufacturing plant owners and managers; professionals working in captive feedstock industries-from food processing and waste management to agriculture and forest products manufacturing-and a growing number of industrial manufacturers, municipal decision makers, researchers, and technology providers engaged in biomass utilization in 40 countries. Biomass Magazine is committed to editorial excellence and high-quality print production and distribution.
