Qiwang Peanuts Expands Globally, Powers Hong Kong Retail Launch with Lekeos Cloud POS

Qiwang Peanuts expands to Hong Kong, deploying Lekeos Cloud POS for scale integration, native Octopus payment processing, and real-time cloud ERP control.

HONG KONG, KOWLOON, HONG KONG, September 30, 2026 /EINPresswire.com/ -- September 29, 2026 — Lekeos, a provider of cloud-native retail and catering digitalization solutions, today announced the successful overseas launch of Qiwang Peanuts, a 30-year-old Chinese snack retail brand operating nearly 600 direct-operated stores. The brand deployed the Lekeos International Cloud POS and ERP platform for its debut international storefront in Tseung Kwan O, Hong Kong.

Qiwang Peanuts Hong Kong checkout terminal powered by Lekeos International POS with scale integration and native Octopus payments.

From a street wok in 1995 to a major retail presence across 32 cities, Qiwang Peanuts selected Hong Kong as its first step in international expansion. Operating high-traffic weighted snack retail overseas presents complex operational requirements, including real-time scale measurements, high peak-hour queue speeds, loss prevention, and localized payment processing.

To address these needs, Qiwang Peanuts selected Lekeos International to deliver an integrated store system:

Scale and POS Integration: Direct synchronization between store scales and checkout terminals to auto-convert amounts, eliminate manual input errors, and accelerate checkout speed.

Native Local Payment Support: Out-of-the-box support for Hong Kong's Octopus card payment system to accommodate local shopping habits.

Unified Cloud Control: Centralized management of product catalogs, real-time pricing, and inventory pushed from mainland headquarters, enabling same-day store launches and live data visibility.

Multi-Currency and Compliance: Built-in multi-currency settlement and local compliance architecture designed for multi-market store rollouts.

"Since our Hong Kong store went live, Lekeos's service and delivery exceeded expectations—from Octopus integration to daily operations," said the Hong Kong store operations lead at Qiwang Peanuts. "We are confident running our Hong Kong presence fully on Lekeos."

Following its Hong Kong launch, Qiwang Peanuts is preparing its next regional expansion into Singapore, supported by Lekeos's multi-market cloud architecture.

Qiwang Peanuts opens its first overseas storefront in Tseung Kwan O, Hong Kong.

About Lekeos Tech Limited

Lekeos Tech Limited is a global provider of cloud-native retail and catering POS and ERP solutions, empowering merchants from front-end checkout terminals to warehouse management backends. With offices in Hong Kong, Hangzhou, and Beijing, Lekeos delivers hardware-agnostic POS ecosystems designed for multi-market retail chains.
