

Southwest MSP Titans of the Industry Recognizes Stimulus Technologies as 2026 Awards Finalist

Stimulus Technologies is named a Southwest finalist in the 2026 MSP Titans of the Industry Awards. Winners will be announced December 9 in Beverly Hills

HENDERSON, NV, UNITED STATES, September 30, 2026 /EINPresswire.com/ -- [Stimulus](#)

“

Being named a Southwest finalist is really a credit to our team. They pick up the phone, know our clients by name, and fix problems before they turn into bigger ones.”

Nathan Whittacre

[Technologies](#) has been named a finalist in the Southwest category of the 2026 MSP Titans of the Industry Awards, which recognize excellence and leadership in the Managed Service Provider industry.

This is the third year in a row Stimulus Technologies has been recognized in the MSP Titans of the Industry Awards. The company won the Southwest category at the inaugural awards in 2024 and was named a finalist again in 2025.

This honor places Stimulus Technologies among a select group of top-performing [MSPs](#) who are redefining what it means to be a trusted technology partner. The nomination recognizes the work they do every day: solving tough problems, building client trust, and helping businesses stay productive, protected, and prepared for what's next in a technology landscape that keeps getting harder to manage.

"We started this company in a garage back in 1995, and the goal hasn't changed since," said Nathan Whittacre, Founder and CEO of Stimulus Technologies. "Business owners shouldn't have to lose sleep over their technology. Being named a Southwest finalist is really a credit to our team. They pick up the phone, know our clients by name, and fix problems before they turn into bigger ones."

The MSP Titans of the Industry Awards highlight MSPs who lead with innovation, client success, and forward-thinking service models. Finalists are selected through a competitive review process that examines business growth, client outcomes, innovation, and overall impact on the MSP community and the clients they serve.

Winners will be announced at the 2026 MSP Titans of the Industry Awards on December 9, 2026, at the Beverly Hilton Hotel in Beverly Hills, California.

"Winning the Southwest award in 2024 meant a lot to our team, and being recognized three years in a row tells us it wasn't just one good year," Whittacre added. "What matters most to me is what this says to our clients. The threats keep getting more serious every year, and small and mid-sized businesses need a partner who takes that seriously. That's what we work to be, every single day."

About Stimulus Technologies

Founded in 1995, Stimulus Technologies is a managed IT and cybersecurity company serving small and mid-sized businesses across the Las Vegas Valley, Long Beach and Southern California, and Central Missouri. The team provides reliable IT support, strong cybersecurity, and a clear technology plan for each client, backed by live phone support 24 hours a day, 7 days a week. What started as a family business has grown largely through client referrals and long-term relationships.

Bio for Media Inquiries

Nathan Whittacre is the Founder and CEO of Stimulus Technologies, which he started in 1995 with his brother and father. He holds bachelor's and master's degrees in computer science from the University of Nevada, Las Vegas, and has more than 30 years in the technology industry. Nathan is the author of The CEO's Digital Survival Guide, host of the Stimulus Tech Talk podcast, and a frequent speaker on AI, cybersecurity, and digital transformation.
