Social Media Confirmed To Be Influencing The Growing Demand for Porcelain Veneer Procedures In Sydney

In an exclusive interview with Eleven Media, Smile Concepts confirmed that social media is Influencing the growing demand for porcelain veneer procedures.

Smile Concepts

SYDNEY, NSW, AUSTRALIA, October 3, 2026 /EINPresswire.com/ -- Smile concepts, with over 40 years combined experience, and considered one of the best dentists in Sydney has built a strong reputation in providing a full range of dental services from a highly qualified and dedicated team. Their mission statement is to build authentic and trusting relationships with clients, at the same time educate them of the wide range of choices available. Porcelain veneer services are one of their services that is growing in demand.

Health and beauty influencers on social media are growing in their endorsement of dental veneers to create beautiful teeth in 2026. Veneers are thin, yet strong tooth-coloured porcelain shells that are bonded on to the front of teeth. They have a “life like” appearance with the strength, beauty, and durability that only a porcelain veneer procedure can create.

Dr Manish Shah, Principal Dentist with Smile Concepts said, “Porcelain veneers can dramatically improve crooked, crowded, chipped and gappy smiles. The veneers that we use in this procedure are of the highest quality and specially designed for the work we do. A big benefit of them, unlike crowns, is that they typically do not require significant erosion of the existing tooth they are being applied to.”

Eleven Media’s investigation found that due to the advanced skills and technology at Smile Concepts, mild preparation is only required and they don’t have to cut away a lot of your teeth to place the porcelain veneer on to the tooth.

“Due to the fast and dramtic results that porcelain veneers can produce, combined with the minimal impact on the patient’s teeth, we are seeing continuing strong demand for our sought-after porcelain veneer procedures” said Dr Manish Shah
