

Logistics Plus Renews Its U.S. EPA SmartWay® Partnership for a 16th Year, Ranking in the Top 12% of Logistics Partners

Global supply chain leader earns top rankings in CO₂, NO_x, and PM emissions per mile among SmartWay logistics companies.

ERIE, PA, UNITED STATES, October 6, 2026 /EINPresswire.com/ -- Logistics Plus, Inc. (LP), a global leader in transportation, logistics, and unique supply chain solutions, announced its 16th consecutive year of approval for data submission to the SmartWay Partnership, a collaborative initiative between the U.S. Environmental Protection Agency (EPA) and industry partners. Logistics Plus received its 2026 SmartWay approval based on 2025 data.

Based on the 2025 data submitted for this year's review, Logistics Plus ranks in the top 12% of all logistics companies participating in SmartWay when averaging across all performance categories. LP earned top rankings in grams of CO₂ per mile, grams of NO_x per mile, and grams of PM per mile, and also placed in the upper half of all logistics partners for grams per ton-mile on all three measures.

"Earning top rankings for CO₂, NO_x, and particulate matter per mile reflects the quality of the carrier network we manage and the discipline of our team," said Ryan McGregor, Director of Business Intelligence at Logistics Plus. "Our data shows we are performing at the top of the field, and we look forward to building on those results."

"SmartWay participation is an important part of our commitment to environmental compliance and transparency," said Adam Mook, Compliance Department Manager at Logistics Plus. "We are

About SmartWay

SmartWay is a market-driven EPA initiative that helps businesses move freight in the most environmentally responsible and energy-efficient ways available. The program gives shippers and carriers the tools and support to track, document, and share information on transport practices that lower fuel use and emissions across supply chains. Additional information is available at epa.gov/smartway.
