

CODEGEN INTERNATIONAL MARKS 26 YEARS OF INNOVATION AND GLOBAL TECHNOLOGY EXCELLENCE

COLOMBO, WESTERN, SRI LANKA, October 6, 2026 /EINPresswire.com/ -- [CodeGen](#) International marked its 26th anniversary on 5 October 2026 with a celebration held at its technology and engineering hub at TRACE Expert City, Colombo 10, commemorating more than two and a half decades of innovation, technological advancement and growth.

The anniversary celebration brought together CodeGen employees to reflect on the organisation's journey, recognise the people who have contributed to its progress and celebrate the culture that has shaped the company over the years. The occasion featured the traditional lighting of the oil lamp, multi-faith religious observances and a gathering of employees from across the organisation, reflecting the diversity, collaboration and sense of community that remain an important part of CodeGen's culture.

FROM SRI LANKAN INNOVATION TO GLOBAL TECHNOLOGY

CodeGen's journey began with a strong foundation in software engineering and travel technology and has since evolved into a diversified technology organisation with expertise spanning artificial intelligence, enterprise travel technology, electric mobility, sustainable energy, agriculture and other emerging technologies.

CodeGen 26th Anniversary Celebration

CodeGen 26th Anniversary Celebration

Travel technology remains at the heart of CodeGen's global operations, with the company continuing to develop enterprise solutions for travel organisations and businesses across international markets.

Over the years, CodeGen has expanded its technology ecosystem across travel, artificial intelligence, mobility, sustainability, education and enterprise technology. Its growing portfolio includes [TravelBox AI](#), Travelbooker, LIA, Negorate, Lumos, Kriyo, Surf AI, [Vega Innovations](#), Elektrateq, chargeNET, CodeGen Solar, Luminara AI, Qbits, Voltmotive, AI3x, eDrops, Cloud Smart School and Algrow, among other brands and technology ventures. Together, these brands reflect CodeGen's broader vision of building and applying advanced technology across multiple industries, while continuing to invest in research, engineering and innovation from Sri Lanka for global markets.

This expansion reflects CodeGen's broader vision of applying its engineering and research capabilities across industries while continuing to explore technologies that can transform businesses, industries and communities.

BUILDING THE NEXT GENERATION OF INTELLIGENT TECHNOLOGY

Artificial intelligence is increasingly shaping the next phase of CodeGen's innovation journey. Across its growing portfolio, AI is being applied to enterprise automation, intelligent travel commerce, conversational technology, software development, data-driven decision-making and customer experiences. Alongside AI, CodeGen continues to invest in electric mobility, clean

energy, energy storage and sustainable agriculture, strengthening its position at the intersection of technology and sustainability.

The company's broader technological capabilities span software engineering, artificial intelligence, electric vehicle technology and energy storage, reflecting a multidisciplinary approach to research, product development and engineering.

INNOVATION BUILT IN SRI LANKA, CONNECTED TO THE WORLD

While CodeGen's technology reaches international markets, Sri Lanka continues to play a central role in its research, development and engineering operations.

From its base in Sri Lanka, CodeGen has built an international presence across markets including the United Kingdom, the United States and the United Arab Emirates, combining local engineering expertise with a global outlook.

Over the past 26 years, the company has also continued to invest in developing future technology talent through internships, mentoring, technical training and career opportunities for young professionals.

Innovation, sustainability, collaboration, knowledge partnerships, community empowerment, global citizenship and excellence continue to shape CodeGen's culture and long-term direction.

LOOKING AHEAD

As CodeGen enters its next chapter, the company remains focused on advancing its capabilities across artificial intelligence, intelligent enterprise platforms, travel technology, sustainable mobility, renewable energy and deep technology research.

The 26th anniversary represents both a celebration of what has been achieved and an opportunity to look towards what comes next.

From pioneering technology solutions to building an increasingly diverse ecosystem of products and businesses, CodeGen's journey continues to be driven by the people, ideas and engineering ambition behind the organisation.

Twenty-six years on, CodeGen continues to build, experiment and innovate, with its sights firmly set on the technologies shaping the future.

ABOUT CODEGEN INTERNATIONAL

CodeGen International is a Sri Lankan-founded technology organisation developing software, artificial intelligence and engineering solutions for international markets.

Building on its foundations in travel technology, CodeGen's technology ecosystem today extends

across artificial intelligence, mobility, renewable energy, agriculture, education and other emerging technology sectors.

With research and engineering at the core of its approach, CodeGen continues to develop products and technologies designed to address business and societal challenges while contributing to Sri Lanka's position within the global technology landscape.
