

Christina Lambert to Host Series of Resident Policy Roundtables to Help Shape West Palm Beach's Future

Community conversations will bring residents, local leaders and subject-matter experts together around 14 key policy areas

WEST PALM BEACH, FL, UNITED STATES, October 7, 2026 /EINPresswire.com/ -- As West Palm Beach continues to grow and change, former City Commissioner and West Palm Beach mayoral candidate [Christina Lambert](#) is bringing residents, community leaders and local experts together for a series of public policy roundtables throughout October to hear directly from residents about their priorities and discuss how the city can build on its progress while addressing local challenges.

As part of Lambert's residents-first approach, the roundtables will cover 14 policy areas — including housing and cost of living, public safety, growth and development, traffic, water, small business and government accountability.

The discussions will include local experts and are designed to give residents a direct role in helping inform the priorities and solutions Lambert will advance for West Palm Beach.

"This is about making sure residents are heard and that they have a real voice in the future of the city we all share," said Christina Lambert. "As West Palm Beach grows, we need to make sure that growth benefits the people who live here and that no one is left behind. That takes transparent, inclusive leadership and a real partnership between residents and their city government — working together to understand what people need, tackle challenges and make the most of the opportunities ahead."

The roundtables are open to the public, and residents are encouraged to participate in as many discussions as they would like.
