

Massachusetts Fiber Optic Contractor Demarc Telecom Awarded \$410,000 SELCO Contract

Awarded through competitive bidding, the contract continues Demarc's involvement in the expansion of Shrewsbury's municipal fiber network.

TYNGSBORO, MA, UNITED STATES, October 8, 2026 /EINPresswire.com/ -- Demarc has supported SELCO through several previous fiber infrastructure contracts. Its work has included aerial and underground fiber placement, fiber optic splicing and network testing.

Across previous SELCO projects, Demarc has contributed to approximately 800,000 feet of fiber construction, 230 splice enclosures and 10,000 recorded fiber test results. These quantities represent prior project experience and are separate from the newly awarded IFB16 contract.

"We've put a lot of work into SELCO's network over the past several years," said Randy Evans, President of [Demarc Telecom & Utility LLC](#). "Our crews know the plant and what it takes to get the work done. We appreciate the opportunity to continue that work in Shrewsbury."

Based in Tyngsborough, Massachusetts, the contractor serves Massachusetts, New Hampshire, Vermont and Maine. Its services include:

- Aerial and underground fiber optic cable placement
- Outside plant fiber construction
- Fiber optic fusion splicing and testing
- Cat6 and Cat6A structured network cabling
- Campus fiber backbone installation and upgrades
- Data center fiber and MPO cabling
- Network closet cleanups and cabling improvements
- Communications conduit GPS mapping

Demarc's experience spans outside plant construction and the cabling infrastructure inside buildings, supporting projects from fiber distribution networks to campus backbones and network rooms.

About Demarc Telecom & Utility LLC

Demarc Telecom & Utility LLC is a certified Minority Business Enterprise (MBE) and telecommunications infrastructure contractor headquartered in Tyngsborough, Massachusetts.

The company holds Massachusetts Supplier Diversity Office and National Minority Supplier Development Council MBE certifications. Founded in 2014, Demarc Telecom & Utility LLC provides telecommunications infrastructure construction for municipal utilities, colleges and universities, government agencies, carriers and commercial organizations.

Demarc is also an awarded vendor on the Massachusetts ITT85 Statewide Contract for Category 1 Cabling Services.
