Twenty-Six Defense Showcases Mission Relevant Modernization Capabilities at 2026 AUSA Annual Meeting & Exposition

FORT WORTH, TX, UNITED STATES, October 8, 2026 /EINPresswire.com/ -- Twenty-Six Defense will showcase a lineup of soldier advancing technologies at Booth 625 during the 2026 Association of the United States Army Annual Meeting & Exposition, Oct. 12–14 at the Walter E. Washington Convention Center in Washington, D.C.

Primex is Twenty-Six Defense's next-generation soldier perception system. It will debut at the 2026 AUSA Annual Meeting & Exposition in Washington, D.C.

Featuring capabilities aligned with Army priorities for modernization, large scale combat operations and multidomain readiness, Twenty-Six Defense will feature solutions that strengthen situational awareness, protection, lethality and speed for today's warfighters.

Primex, the company's next-generation soldier perception system, will debut at the exposition. Primex delivers integrated multispectral sensing, secure access, and seamless connectivity to battlefield data streams and edge compute resources - enabling faster, more informed decision making. The solution is a lightweight, soldier focused wearable system that is designed for day or night operational agility and mission success.

> Twenty-Six Defense is dedicated to delivering capabilities that provide a winning hand to our soldiers on the battlefield."
>
> *Luke Savoie, Twenty-Six Defense President & CEO*

Primex builds on the company's extensive experience designing, qualifying, and delivering high volume soldier vision systems, including the Army's widely used AN/PSQ-44 Enhanced Night Vision Goggle –

Binocular.

Twenty-Six Defense will also spotlight its XM1168 mobile 120 mm mortar system, Autonomous Relocatable Surveillance Tower and SkyStriker Block 4E – solutions that provide force protection, counter-UAS capabilities and precision effects.

“Twenty-Six Defense is dedicated to delivering capabilities that provide a winning hand to our soldiers on the battlefield,” said Luke Savoie, president and CEO.

With more than 30 years supporting the U.S. military, Twenty-Six Defense’s 3,300 American employees continue to expand domestic engineering and manufacturing capacity at a time when the nation is calling for greater industrial speed and resilience.

Twenty-Six Defense is an American defense company that employs 3,300 Americans who have supported the U.S. military for more than three decades.

The SkyStriker B4E is Twenty-Six Defense's loitering precision effect built to find, track and engage targets when timing matters.

“Our mission is simple,” Savoie said.
“Advance the warrior. Build with agility. Deliver reliability that endures.”

AUSA 2026 attendees can explore these technologies and meet the experts behind them at Booth 625, where Twenty-Six Defense will showcase how its American led innovation is helping modernize the force for the future fight.
