Clean Remedies Launches Three New Chocolate Bars for Calming Daily Rituals

Clean Remedies is expanding its chocolate collection with the launch of three new chocolate bars featuring plant-based ingredients.

Clean Remedies' EASE is an everyday ritual of calm and comfort.

AVON, OH, UNITED STATES, October 8, 2026 /EINPresswire.com/ -- Clean Remedies is expanding its chocolate collection with the launch of three new chocolate bars featuring plant-based ingredients. Designed to support simple daily rituals, the new products bring together rich chocolate and natural wellness in three distinct formulations: EASE, DRIFT, and Optimal Wellness.

Leading the new offerings is EASE, a dark chocolate bar crafted with 500 mg of nano-emulsified CBD. Engineered for higher absorption than conventional CBD, EASE delivers a consistent, relaxing experience designed to settle and calm the body during the day.

DRIFT is a dark chocolate bar combining 500 mg of nano CBD with 200 mg of nano CBN. Built around an evening ritual, the bar combines two cannabinoids in a single chocolate bar. The combination is intended to complement quieter nighttime routines, offering an option for those looking to make relaxation and winding down part of their evening.

The third addition, Optimal Wellness, is a milk chocolate bar featuring 100 mg of CBG and 100 mg of CBD. This product pairs the two cannabinoids in a creamy chocolate format, designed around the concept of daily balance and wellbeing.

All three new bars are THC-free and feature different cannabinoid combinations to reflect

distinct moments and preferences. EASE is priced at $29.99, while DRIFT and Optimal Wellness are each priced at $34.99.

With these new chocolate offerings, Clean Remedies continues to explore accessible ways to incorporate cannabinoids into delicious, enjoyable formats. Rather than positioning the products around a single-use occasion, the collection is built around intentional rituals, from taking a quiet moment during the day to creating a more relaxed evening routine.
