

JobSight360 Launches Project-Wide Cost Reporting and Pay-App Automation

New reporting tools connect project costs with automated pay applications, reducing manual work and improving billing accuracy for contractors.

LAS VEGAS, NV, UNITED STATES,
October 9, 2026 /EINPresswire.com/ --
PRESS RELEASE — JobSight360

FOR IMMEDIATE RELEASE

The makers of JobSight360, the construction industry's leading project management and field operations platform, today announced the launch of a new project wide cost and pricing report designed to integrate seamlessly with the platform's newly released pay app automation system.

This combined release marks a major step forward in eliminating manual billing workflows for contractors, subcontractors, and project managers. The new reporting engine consolidates cost data across the entire project lifecycle — labor, materials, equipment, change orders, and progress billing — and feeds it directly into automated pay app generation.

"Our goal has always been to remove friction from construction operations," said Kevin Cabral, Founder at JobSight360. "By pairing project wide cost visibility with automated pay app support, we're giving companies a faster, cleaner, and more accurate way to bill — without the administrative burden."

Key Capabilities

- **Unified Cost & Pricing Report** Real time aggregation of all project financials in a single, exportable view.
- **Direct Pay App Integration** Automatically generates pay applications using verified cost data, reducing errors and processing time.
- **Audit Ready Accuracy** Every billed item is traceable back to its source, ensuring compliance and

transparency.

- Frictionless Billing Workflow Eliminates redundant data entry and manual reconciliation across multiple systems.

The new reporting and billing features are available immediately to all JobSight360 customers as part of the platform's ongoing commitment to delivering modern, automation driven construction management tools.
