

CoCountant Ranks No. 1 on Clutch's List of Top Bookkeepers in the United States

A 4.9 out of 5.0 rating and verified client reviews point to on-time monthly closes, fast responses, and smoother accounting workflows.

CAMBRIDGE , MA, UNITED STATES, October 13, 2026 /EINPresswire.com/ -- [CoCountant](#), a controller-led bookkeeping and accounting service for U.S. startups and small businesses, today announced that it ranks No. 1 on Clutch's list of Top Bookkeepers in the United States. CoCountant holds a 4.9 out of 5.0 rating on Clutch, based on 5 verified client reviews.

For a growing business, a good bookkeeping partner does more than keep transactions in order.

“

This ranking comes from our clients' own reviews, so it reflects what it's really like to work with us. That's why it means so much to our team.”

Umair Aziz

Owners need timely reports, clear answers, and support they don't have to chase. CoCountant's Clutch reviews point to exactly that: quick responses, close attention to detail, and on-time delivery.

Those reviews come from a wide range of businesses, including information technology and fintech companies, a healthcare technology company, a telecommunications provider, nonprofits, a dental practice, and consulting firms. Their needs differ, but their reviews describe the

same experience: on-time monthly closes, clear communication, and financial reports they can rely on.

Several clients shared measurable results. A nonprofit reported passing its annual audit with zero material issues and cutting financial prep time by 50%. A fintech startup reported passing an independent audit in under five weeks. A healthcare technology company reported spending 30–40% less time managing its marketing department's finances.

"Business owners shouldn't have to chase their bookkeeper for updates or second-guess the numbers they get," said Umair Aziz, CEO of CoCountant. "Our job is to keep the books current, explain what the numbers mean, and respond quickly when clients have questions. This ranking comes from our clients' own reviews, so it reflects what it's really like to work with us. That's why it means so much to our team."

CoCountant is a bookkeeping and accounting service built to help startups and growing businesses run lean, professional finance operations without the cost of an in-house team.

On CoCountant's core plans, each client gets a dedicated pod for day-to-day bookkeeping. A controller reviews the work and signs off on every monthly close, and helps clients resolve discrepancies and understand their numbers. The team works inside the client's own QuickBooks Online account, so the business can see its books at any time and always owns its financial data.

CoCountant publishes its service commitments: a monthly close within 10–15 business days, and response times of 2–4 hours (2 hours on its Command plan). Businesses get ongoing bookkeeping and accounting expertise without having to recruit and manage an in-house finance team.

Clutch ranks providers on their ability to deliver, based on verified client reviews, past work, and market presence. Rankings update regularly. This announcement reflects CoCountant's position on the U.S. bookkeeping list as of 10/13/2026.

You can read CoCountant's verified reviews on our [Clutch profile](#).

#####t:

CoCountant provides controller-led bookkeeping and accounting support to U.S. businesses. Each client works with a dedicated controller and accounting pod inside the client's own QuickBooks Online account, providing visibility into the work while allowing the business to retain ownership of its financial data. Services include monthly bookkeeping and close, catch-up bookkeeping, financial planning and analysis, tax support, and finance team extension.
