

Hollywood Photo Booth Launches AI Doodle Caricature Bots for Southern California Events

Robotic sketch artists draw event guests live, blending AI with real-time artistry for corporate events and luxury weddings.

LOS ANGELES, CA, UNITED STATES, October 14, 2026 /EINPresswire.com/ -- [Hollywood Photo Booth](#), the Los Angeles luxury photo experience company serving events since 2006, today announced the launch of its AI Doodle Caricature Bots, a new event experience in which robotic sketch artists draw guests live, creating personalized caricature-style keepsakes in minutes.

Selena Gomez and Karol G at a Hollywood Photo Booth event

The DoodleBots combine artificial intelligence with robotic drawing technology to produce hand-drawn-style portraits on the spot. Guests sit for just a few minutes while the robot sketches their likeness, then walk away with a one-of-a-kind piece of art from the event. Each sketch is created live in front of guests, making the process itself part of the entertainment.

Unlike a traditional caricature artist, who serves one guest at a time, the DoodleBots work through a crowd efficiently while delivering a consistent result for every guest. The experience is built for high-volume settings — corporate receptions, trade show floors, gala cocktail hours, and wedding receptions — where hundreds of guests expect something memorable without standing in long lines.

The sketches can be tailored to each event's branding and theme, giving corporate clients and planners a keepsake that carries the event's identity. For brand activations, the DoodleBots offer a natural draw: a live robotic artist at work stops foot traffic and gives attendees a reason to engage, linger, and share the moment.

"Guests remember how an event made them feel, not the centerpieces," said Michael Tertoolle, Founder and CEO of Hollywood Photo Booth. "A robot drawing your portrait in front of a crowd

— that's a moment. People watch, they laugh, they take the sketch home and keep it. That's what our clients are paying for: the moment, not just the photo."

The launch reflects a broader shift in the events industry toward interactive, experiential entertainment. As photo booths have become standard at weddings and corporate events, planners and brands are looking for experiences that stand apart — something guests haven't already seen at the last three events they attended.

Hollywood Photo Booth has served more than 10,000 events since 2006, including weddings, galas, red carpets, and major brand activations across Southern California and nationwide. The company's lineup of premium experiences includes the red-carpet GlamBot, live [photo mosaic walls](#), AI roaming photo services, and the AI trading card experience, all produced with studio-grade equipment and professional on-site attendants.

The AI Doodle Caricature Bots are available now for bookings across Southern California and for corporate events nationwide. More information is available at hollywoodphotobooth.com.

About Hollywood Photo Booth

Founded in 2006, Hollywood Photo Booth is a Los Angeles-based luxury photo experience company serving Southern California and corporate activations nationwide. Across 10,000+ events — weddings, galas, red carpets, and major brand activations — the company produces immersive photo services with studio-grade equipment, professional attendants, and white-glove service. It's photo experiences have hosted A-list guests including Justin Bieber, Selena Gomez, Karol G and hundreds more. Fully insured (\$3M general liability, workers' compensation, commercial auto).
