

Nearly 535,000 Americans Filed to Start a Business in September

Business applications hit 534,947 in September. Be your own boss with a professional address. Use code BOSS100 to waive the \$100 setup fee.

BOCA RATON, FL, UNITED STATES, October 16, 2026 /EINPresswire.com/ -- On National Boss's

“

Every application is someone deciding to be their own boss. This Boss's Day, we want them to start with an address that looks as established as they plan to be.”

Yori Galel, CEO of Opus Virtual Offices

Day, a growing number of Americans are choosing to be their own. Nearly 535,000 filed an application to [start a business](#) in September, according to Census Bureau data released October 14. That is about 4% more than the same month last year and roughly 1.8 times the monthly pace of 2019.

Turning an idea into a business takes more than a filing. New owners need an address for registration forms, a website, a bank account, and invoices, and for most of them the default is a home address. Once it is on public records, it is visible to anyone who looks. A professional

commercial address keeps work and home separate from day one.

That is the gap Opus Virtual Offices, a leading provider of [virtual office solutions](#) with 650-plus locations across the United States, is built to close. For \$99 a month, businesses get a prestigious commercial address, a live receptionist answering calls in the company's name Monday through Friday, professional mail handling, and a dedicated business phone number, with no long-term contract.

“Being your own boss starts with looking the part, and that means a professional address from day one, not a home address on public record,” said Yori Galel, CEO of Opus Virtual Offices. “That is what we built Opus to do.”

For a limited time, new clients can [sign up](#) at [opusvirtualoffices.com](#) and use promo code BOSS100 to waive the \$100 setup fee.

About Opus Virtual Offices
