'Undeliverable' Heads to San Diego and
New York Film Festivals, Examining the
Human Cost of America's Delivery
Economy

Four-time Emmy-nominated filmmaker
Frank Licari's documentary screens
October 16 and 18 at the San Diego
International Film Festival before opening the Workers Unite Film Festival in New York City on
October 23.

“

We've become a society
addicted to convenience,
but rarely do we stop to
consider the true cost of
that convenience.”

UNDELIVERABLE: PRIME PROFITS. POOR PEOPLE., a new
investigative feature documentary from four-time Emmy-
nominated filmmaker and television host Frank Licari, will
screen at the 2026 San Diego International Film Festival
before making its New York City festival premiere as the
opening program of the 15th annual Workers Unite Film
Festival.

The documentary examines the largely unseen workforce
behind America's growing demand for rapid home delivery, focusing on Amazon's Delivery
Service Partner (DSP) network and the independent businesses and drivers responsible for
delivering millions of packages to American households.

Through interviews with delivery business owners, drivers, industry observers, academics, and other individuals familiar with the delivery industry, *Undeliverable* explores the economic pressures, workplace expectations, and structural challenges facing those operating within the last-mile delivery system.

The film also raises broader questions about the relationship between consumer convenience, corporate responsibility, independent contractors, and the changing American workforce.

The documentary will screen at the San Diego International Film Festival on Friday, October 16, at 11:30 AM and Sunday, October 18, at 6:15 PM, at AMC UTC 14 in San Diego.

Following those screenings,

Undeliverable will travel to New York City, where it has been selected as the opening program of the Workers Unite Film Festival on Friday, October 23, at 6:00 PM at Cinema Village, 22 East 12th Street, Manhattan. The evening's program also includes narrative short films and a Q&A.

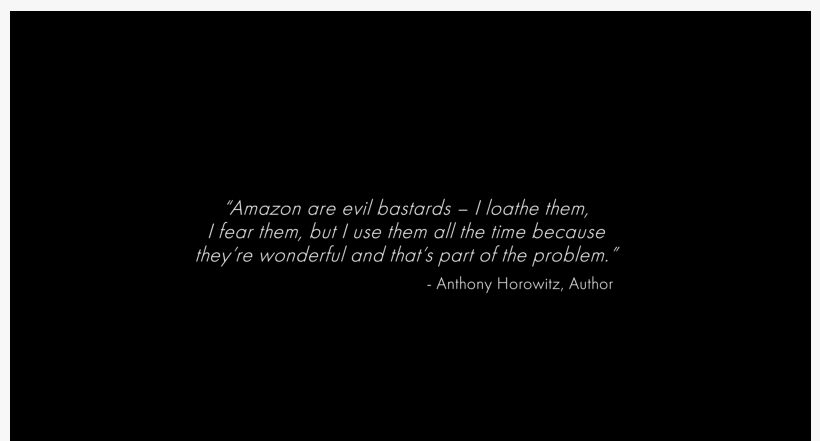

Now celebrating its 15th season, the Workers Unite Film Festival presents films examining working lives, labor rights, and the experiences of workers in the United States and internationally.

Undeliverable approaches its subject through interviews, personal experiences, and an examination of the business relationships that shape modern package delivery. The film invites audiences to consider the people and systems behind the convenience of the modern delivery economy.
