

Federal Apostille USA Launches Nationwide Federal Document Apostille Service

DC-based service handles U.S. Department of State apostilles for FBI background checks, DD-214s, IRS, SSA and naturalization records nationwide.

WASHINGTON, DC, UNITED STATES, October 20, 2026 /EINPresswire.com/ -- Federal Apostille USA today announced the launch of its nationwide [federal apostille services](#). The company helps individuals, families, attorneys and businesses obtain U.S. Department of State apostilles and authentications for federally issued documents. It is headquartered in Washington, DC, accepts orders online and by mail from all 50 states, and supports clients through offices in 13 major U.S. cities.

Many people discover too late that a state Secretary of State cannot apostille documents issued by a federal agency. FBI background checks, DD-214 military discharge records, IRS Form 6166 certificates of residency, Social Security Administration letters, Certificates of Naturalization, federal court documents, and FDA, USDA and DEA export certificates must be authenticated by the U.S. Department of State Office of Authentications in Washington, DC. Submissions with the wrong signature, an incorrect request form or a missing certification are often returned, and each rejection can add weeks. That delay hurts people moving abroad, marrying overseas, applying for foreign residency or work visas, or closing international business transactions.

“ A federal apostille shouldn't be the thing that holds up a visa, a wedding abroad or a business deal. We get the document right the first time so our clients can move forward.”

Beatriz Santos

Federal Apostille USA manages the full process. The team reviews each document for eligibility, prepares the Department of State request, handles submission and tracking, and returns the authenticated original by trackable shipping. If the destination country is not a member of the

1961 Hague Apostille Convention, the company also coordinates the additional embassy or consulate legalization step.

“Most people who need a federal apostille are already working against a deadline: a visa appointment, a wedding date abroad, a job start, or a closing,” said Beatriz Santos, founder of Federal Apostille USA. “Our job is to get the document right the first time, so a federal apostille stops being the thing that holds up someone’s plans.”

FBI background check and apostille in one service

The FBI Identity History Summary, commonly called an FBI background check, is one of the most frequently requested documents for international use. Applicants usually have to obtain the check and then arrange the apostille separately. Federal Apostille USA combines both steps. The company provides the FBI background check, with electronic fingerprint capture and submission through an FBI-approved channeler, and then carries the results straight through to Department of State authentication. Electronic fingerprinting is available in-house at the company’s West Palm Beach, Florida office. Clients elsewhere can submit their own FBI results for apostille.

Documents handled

Federal Apostille USA authenticates a wide range of federal records, including:
