

Upgaming to Attend SiGMA Europe 2026 in Rome

Enterprise iGaming solutions provider will join SiGMA Europe 2026, with its team available for meetings with existing partners and businesses.

ZUG, SWITZERLAND, October 19, 2026 /EINPresswire.com/ -- [Upgaming will be present at SiGMA Europe 2026](#) in Rome from 3 to 5 November, joining operators, technology providers, affiliates, and other professionals from across the international iGaming industry.

Upgaming Will Be Present at SiGMA Europe 2026

The event will provide an opportunity for the Upgaming team to reconnect with existing partners, continue ongoing business discussions, and meet companies interested in new technology and [integration opportunities](#).

Throughout the exhibition, Upgaming representatives will be available to discuss how the company's solutions can support operators looking to expand into new markets, improve existing infrastructure, or add new products to their operations.

Depending on each company's requirements, discussions may cover Upgaming's enterprise iGaming platform, sportsbook software, and game aggregation software, as well as areas such as localization, payments, CRM, content management, integrations, and market-specific technology needs.

SiGMA Europe will also create an opportunity for more detailed conversations around operational growth and scalability. Operators will be able to discuss their current challenges directly with the Upgaming team and explore how different products and integrations can be adapted to their business model.

For existing partners, the event will provide valuable face-to-face time to review current cooperation, discuss upcoming projects, and identify new areas for development. At the same

time, Upgaming will use the conference to establish new relationships with operators and other industry businesses seeking flexible and scalable iGaming technology.

Companies attending SiGMA Europe 2026 can meet Upgaming representatives throughout the event in Rome and discuss potential partnerships, integrations, and future projects.
