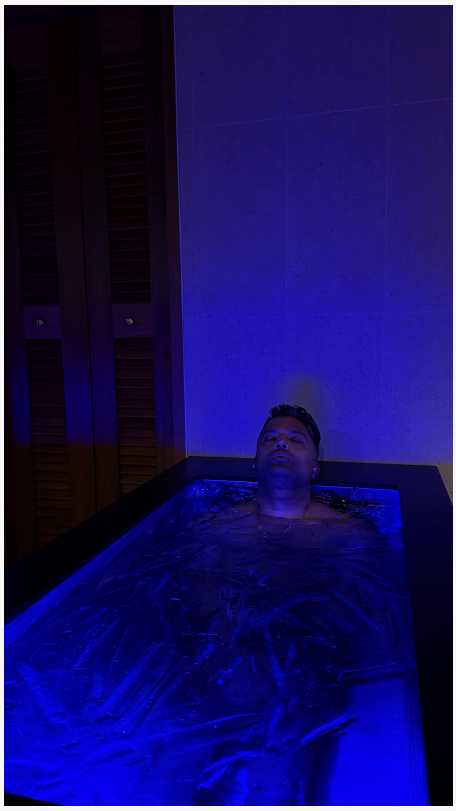
RAPIDÉ Outlines Corporate Musculoskeletal Wellbeing Programme Concept

Proposed employer offering combines education, appropriate assessments
and curated recovery experiences.



SINGAPORE, SINGAPORE, October 22, 2026 /EINPresswire.com/ -- RAPIDÉ is outlining a proposed clinician-led corporate wellbeing programme for
Singapore employers and benefits partners.

The proposed framework includes musculoskeletal education, appropriate clinical assessments
or referrals, and selected recovery experiences where suitable. It is designed to complement
existing employee benefits rather than replace medical coverage or occupational health services.

“Corporate wellbeing should be relevant, professionally delivered and capable of being
evaluated.” said John Abraham, Founder and CEO of Rapid Group.
RAPIDÉ proposes evaluating pilot programmes using engagement, participant feedback and commercial feasibility. Programme content, screening requirements and participation would be determined in consultation with each organisation.

The programme remains a proposed collaboration framework; this announcement does not represent a signed partnership or confirmed employer rollout.

About RAPIDÉ
RAPIDÉ is a recovery and performance concept located at 22 Martin Road, Singapore.
