

The-Tech Doctor Named 2026 Best of Texas Award Winner

NEW BRAUNFELS, TX, UNITED STATES, October 29, 2026 /EINPresswire.com/ -- The-Tech Doctor, a managed IT services provider serving businesses across Central Texas, has received the 2026 Best of Texas Award. The recognition honors a local team that combines technical expertise with genuine community relationships. For the businesses it serves, the award reflects more than a decade of dependable support that keeps technology working as a tool rather than an obstacle.

What sets The-Tech Doctor apart is its proactive, relationship-driven approach. As a full-service managed services provider, the company monitors networks and maintains data backups. It also manages Microsoft 365 environments and protects clients from cybersecurity threats before they lead to costly downtime. The company provides VoIP phone services as well. Its newest offering, secure AI integration, helps businesses adopt new tools while keeping sensitive information protected. Clients also benefit from fast response times, with calls typically answered within the first ring or two.

The company's commitment to New Braunfels runs deep. Following a 2019 fire at the Wursthof grounds, The-Tech Doctor designed, built, and maintained the site's entire network infrastructure. The community has recognized that dedication by naming the company Best of New Braunfels for Computer and IT Support for eight years. Its certified technicians take time to understand each client's needs and communicate clearly. They also help business owners make technology decisions that support their long-term goals. That philosophy is captured in the company's promise to be "Your Strategic Partner in Technology."

"This recognition means so much to our entire team," said CEO Matthew Hopkins. "Technology should make running a business easier, not harder. We take pride in knowing our clients by name, answering the phone quickly, and giving honest advice that helps them grow. We are grateful to every business and neighbor who has trusted us along the way."

Looking ahead, The-Tech Doctor will continue expanding its services, including secure AI solutions, to help Central Texas businesses stay productive and protected. The 2026 Best of Texas Award stands as a proud milestone for the company. It also serves as a reminder of the standard the team brings to every client relationship.
