

A New Reflection of Time: MONDAINE Unveils the Doppio Mirror Edition

The Swiss Made limited edition watch introduces a mirrored dial that plays with light and reflection, bringing a new perspective to minimalist watch design.

PFÄFFIKON SZ, SWITZERLAND, October 23, 2026 /EINPresswire.com/ -- A watch tells the time, but what if it could also reflect the world around it? With the new [Doppio Mirror Edition](#), [MONDAINE](#) explores the relationship between time and its surroundings, turning an everyday object into a constantly evolving visual experience.

At the centre of the design is a mirrored outer dial ring that captures changing light throughout the day. Contrasting with the black inner dial, the reflective surface adds depth and movement, giving the watch a subtly different appearance from every angle.

The Mirror Edition builds on the distinctive design language of the MONDAINE Doppio collection, defined by repetition, rhythm and structural clarity. Its signature double-line hands and indexes are complemented by a concave dial and double-domed sapphire crystal, creating a contemporary expression of Swiss minimalist design.

“

With the Doppio Mirror Edition, we explore how reflection can bring a new dimension to a familiar design, while staying true to our minimalist approach.”
