ORLANDO, FL, UNITED STATES, October 28, 2026 /EINPresswire.com/ -- Guardian Fleet Services® announced today the opening of its annual Leadership Conference, a two-day event held in Orlando, Florida, bringing together the company's leadership team and select strategic partners. The event aims to sharpen alignment across the organization, build leadership capability, and underscore Guardian's ongoing investment in what matters most: its people.

> Investing in our leaders strengthens Guardian from the inside out. It makes us a stronger partner to our vendors, our customers, and the communities that count on us."
>
> *Tom Tedford*

Held each year, the conference anchors Guardian's approach to developing leaders at every level. This year's program centers on strategic planning, hands-on learning, and skill building, with a steady focus on the customer service, safety, and operational excellence that define the Guardian® name.

"The strength of Guardian has always come down to our people," said Tom Tedford, Chief Operating Officer of Guardian Fleet Services. "Investing in our leaders strengthens Guardian from the inside out. It makes us a stronger partner to our vendors, our customers, and the communities that count on us. Great leadership shows up as clearer communication, smarter decisions, and better service on every roadway and at every terminal."

Over two days, attendees connect through leadership sessions, cross-functional conversations,

and shared learning that shape how Guardian teams lead, communicate, and support each other. That investment carries through every part of the business, from safety and customer service to efficiency and response times.

“Trucks, technology, and size all matter, but none of it works without strong leaders. Leadership is what keeps us moving in the right direction,” Tedford added. “Our leaders set the standard. They build our culture. They are why Guardian keeps growing.”
